

# Beef Quality Assurance Training

**THURSDAY, April 4, 2019 • 6:00-7:30 P.M.**

The BQA program has been developed from research backed best management practices, with one of the goals being developing consumer trust with transparency. This certification is not mandated by law. However, it is being requested by some of the links that make up the beef supply chain, including auction barns, feed lots, packers, retailers, and consumers. We encourage all cattle producers to get BQA certified.
